

WHAT IS THE EMOTION CODE®?

Created by Dr. Bradley Nelson (D.C., ret) after more than 20 years as a holistic chiropractor and teacher, The Emotion Code® is designed to help you:

- Resolve physical discomfort
- Ease emotional wounds
- Restore love to relationships
- Break cycles of self-sabotage

In his work as a holistic chiropractor, Dr. Nelson discovered that his patients' aches and pains were often more than physical, but also emotional. He coined the phrase "**Trapped Emotions**" to describe the negative emotional energy that may become trapped in a person's body during a trying time.

It's our premise that when the negative energy of troubling emotions becomes trapped in the energy field of the body, it can cause:

- Chronic health problems
- Tendencies toward sadness, anxiousness, or fear
- Inability to give and accept love
- Bodily malfunction and disease

The Emotion Code® is used to discover and release possible underlying energetic causes. Using it could help ease physical discomforts, overcome emotional distress and negative thinking, conquer self-doubt, and more.

Your Certified Emotion Code Practitioner (CECP) has been trained to help you identify and release potential Trapped Emotions in a 4-step process designed to clear the way for your body's natural recovery ability to take over.

UNPACK YOUR EMOTIONAL BAGGAGE

Have you ever felt like:

- You're on the outside looking in
- You're blocked from giving or receiving full love
- You can't recover from a loss, divorce, or other emotional turmoil

Or, maybe something just seems "off" about the way you feel, but you can't put your finger on it. Most of us have been there at one time or another, which may be due to what a lot of people call "emotional baggage." And our premise is that, like our bodies, emotions are nothing more than energy.¹

The Emotion Code® can help you discover and get rid of that negative emotional energy and unpack your emotional baggage for good.

WHAT HAPPENS IN A SESSION?

The Emotion Code® is completely painless and non-invasive.

It's a simple process designed to use muscle testing (a form of biofeedback) to tap into the knowledge stored in your subconscious mind.

Your practitioner will begin by asking a series of simple yes or no questions, assessing your body's response via muscle testing. Often, this process identifies Trapped Emotions that may affect physical and emotional wellness. Then, your practitioner can work to release those energies one at a time using magnetic energy and principles of ancient Chinese medicine.
